Innovate your Food Applications with Organic Superfood Crisps

- Agroindustrias Osho is a leading manufacturer of superfood crisps from the Peruvian biodiversity. We use our advanced extrusion technology to make innovative crisps leveraging our wide range of superfoods such as amaranth, chia, maca, quinoa and sacha inchi to produce crisps based on functionality, flavor, texture, and nutrition content.
- We differentiate from other plant-based crisps in the market that we combine our superfood crisps with nutrient dense quinoa rather than rice to produce crisps for different food applications.
- We work closely with our clients to develop innovative superfood crisps that can help them meet market trends and anticipate consumer needs.

Sustainable Sourcing

- We source our premium raw materials from our own crops and through direct partnerships with small farmers from several communities in the Andean highlands and the Amazon rainforest following social and environmental principles and contributing directly to regional development and environmental preservation.

Strict Quality and Safety Standards

- Our processing plant has Global Food Safety Certification through BRC (AA rated). Also, it is HACCP, GMP, Organic (USDA-NOP, COR, EU & JAS), Kosher, Halal, Ethical Sourcing certified and is Allergen-Free.
- We have full traceability from field to final product with quality systems in place to ensure the highest performance, efficacy and consistency so our clients can receive an identical product, time after time.

Key Features

- Our superfood crisps have three key attributes seek by consumers:
 - Nutritional
 - Flavor
 - Crunchiness
- All our superfood crisps are:
 - Organic
 - Kosher
 - Halal
 - Non-GMO
 - Vegan
 - Gluten Free
 - Allergen Free
- All our superfood crisps have a kill step with the controlled heat extrusion that ensures food safety peace-of-mind.
